Lead Product Designer · Enterprise UX & AI/ML Product Design

Los Angeles, CA · (213) 282-9903 · beverlywang.design@gmail.com · beverlywang.github.io

Recently moved to Los Angeles, open to remote, hybrid, or onsite opportunities

Summary

7 years designing enterprise SaaS and Cloud products at Fortune 500 scale, including data security, compliance, and infrastructure platforms. Expert at translating complex, ambiguous enterprise requirements into intuitive, user-centric experiences. Pioneered AI-powered design-to-code workflows using Claude Code and Figma Make, boosting team productivity by 50%. Thrive on ambiguity - shaping messy, technical problems into experiences users trust, whether the complexity comes from infrastructure, data, or AI.

Experience

Lead Product Designer · **Arctera** *Dec 2024 – May 2026 · San Ramon, CA*

- **Spearheaded and led team-wide adoption of AI-powered design workflows** using Claude Code and Figma Make, boosting team productivity by **50%** and raising the bar for prototyping innovation.
- **Led end-to-end design strategy** for a next-gen SaaS data compliance platform - from discovery and research through high-fidelity design and developer handoff.
- **Designed an AI-powered reporting experience** for a next-gen data compliance platform, defining how users interact with AI-generated insights within complex enterprise workflows.
- **Architected and scaled core design system components**, reducing UI inconsistencies by **50%** and establishing company-wide standards across cloud and on-prem products.
- **Championed user-centered design** by driving design direction with product and engineering leadership - shaping roadmap priorities and owning design scoping and planning.
- **Designed a chat-based AI compliance assistant** — including graceful error handling that redirected users to answerable questions — demoed to customers, who requested early access ahead of GA.

Senior Product Designer · **Veritas Technologies** *Mar 2022 – Dec 2024 · Remote/Santa Clara, CA*

- **Led end-to-end design across compute, deployment, storage, security, multi-tenancy, and admin workflows** — shipping to **80K+ customers, including 87% of the Fortune 500**.
- **Mentored junior designers** and earned 100% positive feedback; recognized with **6 WOW Awards** for exceptional UX and business impact.

Product Designer · **Veritas Technologies** *Aug 2019 – Mar 2022 · Remote/Santa Clara, CA*

- **Designed complex administrator workflows** - onboarding, policy management, multi-tenancy, and dashboards - driving a **20% increase in customer satisfaction**.
- **Developed data visualization guidelines** adopted across teams, cutting design-to-development time by **40%** and improving cross-product consistency.

Education

MS, Human-Computer Interaction · University of Michigan, Ann Arbor · 2019

BBA, Marketing · College of William & Mary · 2014
